Personality

We Assemble, Test, Perfect & Deliver High End Computers & Laptops delivered throughout South Africa & a few Neighbouring Countries

We work for those three simple words, you will know it once we are done.

Goals - Kiss

- Keep It Simple Stupid
- Everything is not about money.
- Advice first, costs second, then integrate and complete the process.
- An unmatched experience to be felt upon completion.

Frustrations - Don't Be Fooled

- Advising a client that there is no such thing as Uncapped.
- Scheduling maintenance dates & times.
- Getting you out of the Dark Ages & into the Future. It's now 2018.
- Never fight with your PC, you don't stand a chance.
- Don't buy toys and expect it to work on your network.

Biography

We started in 2005 in a one bedroom flat. It took us a year back then to create the Logo that stands the test of time.

We moved house & combined office in 2009 & we are still here.

We have touched clients throughout South Africa & a few neighbouring countries.

We are Microsoft Certified Partners, HP Business Partners, Adobe Certified Resellers.

We have the ability & authority to build you High End custom built desktops & laptops with HP, Dell & Lenovo with their respective warranties intact.

What We Do In A Nutshell

IT Sales:

You name it & we will make a plan to get it for you at the most cost effective price.

IT Support:

No contracts at all, you pay we deliver, you no pay we no deliver. Together we agree on a price & service required. We offer you a Comprehensive IT Solution. Our aim is to be an asset to your business & not a liability.

Hardware Solutions: Built to order & pre-built systems, we have them all.

Internet Access:

ADSL which is slowly fading out

Fibre to the home or business, subject to your location.

MTN Mobile LTE data sim cards with 3 month data rollover.

Fixed wireless, LTE-Advanced, with Rain. Speeds of up to 50Mbps, coverage dependent

Voip Telephony:

Standalone Single lines to Advanced Hosted, & Onsite switchboards. Amazing savings generated by this service. Smart Phone compatible.

Installations:

Cat6 networks, CCTV with remote viewing, Scanning, Printing, Routing, Firewalls, Servers and loads more.

Services:

Website construction, Catalog, E-commerce (sell online) , Logo design, Portfolio's, Onsite & Offsite repairs & upgrades & a whole lot more.

Hosting:

Our servers are located in Los Angeles, due to them being High End machines.
